PROFESSIONAL SUMMARY

Software Engineer with **5+ years of experience** building and shipping React Native / Expo apps to production. Strong in TypeScript, React, Laravel, SQL, and Azure. Experienced in end-to-end feature ownership, from idea to deployment, with a focus on mobile and front-end. Passionate about building AI features into products and working in fast-paced, ship-it environments.

TECHNICAL SKILLS

Core:	TypeScript, JavaScript, PHP, SQL, Kotlin, Java
Frameworks & Libraries:	React Native (Expo), React, Laravel, NodeJS, NextJS, Redux Thunk, Redux Saga, Recoil, Context API, Jetpack Compose, Coroutine
Practices:	Agile/Scrum, App Store & Play Store release workflows, EAS / OTA updates, Code reviews
Cloud & DevOps:	Microsoft Azure (Functions, App Services, Kubernetes), Docker, Vercel
Databases:	Firebase (RTDB, Firestore), SQLite, MySQL, MongoDB
Version Control & CI/CD:	GitHub, Bitbucket, GitHub Actions, Jenkins
Tools & IDEs:	Android Studio, Xcode, VS Code, Postman, Jira, Sentry
Testing:	Unit/Integration testing, Jest, JUnit

PROFESSIONAL EXPERIENCE

React Native Developer (Contract)	Oct 2025 – Present
-----------------------------------	--------------------

Keywordal

- Building an e-learning platform using React Native / Expo, delivering features from concept to production.
- Collaborating with design team to finalise UI and ensure smooth user experience.
- Working in agile environment for rapid feature delivery, demonstrating progress to product owner via Expo Go.
- Owned end-to-end feature development, including scoping, building, and shipping updates via EAS.

Senior React Native Developer	Apr 2023 – Sep 2024
-------------------------------	---------------------

Lime Software Logics

- Maintained and evolved a US pavement-industry React Native app, shipping features like team chat, PDF export, maps, and notifications.
- Implemented real-time chat and push notifications using Firebase RTDB/Cloud Messaging, ensuring stability on real-world devices.

- Owned integrations for maps and geo-tagged media, improving reliability and performance across iOS/Android.
- Delivered sprint goals on time within Agile ceremonies, enabling client to take product to market and increase user base by 20%.
- Worked across the full stack, including Laravel backend APIs and SQL queries to support mobile features.

Mobile Application Developer

Aug 2019 – Apr 2023

SAS Solutions ORG

- Developed and maintained mobile and web applications using React Native, React, TypeScript, Kotlin, and PHP/Laravel.
- Built features across diverse industries including food delivery, identity verification, medical appointments, and microfinance banking.
- Integrated REST APIs and payment methods (PayPal, Stripe, Razorpay), and worked with SQL databases for data persistence.
- Led development of multiple in-house and customer-facing applications, enabling business to launch new offerings faster.
- Refactored app UI and improved API integrations, enhancing UX consistency and performance.

EDUCATION

MSc Computer Science

Sep 2024 – Oct 2025

Nottingham Trent University, United Kingdom

BS Software Engineering

Sep 2015 – May 2019

Iqra University, Karachi, Pakistan

CERTIFICATIONS

Microsoft Azure Fundamentals (AZ-900) | Issued: Sep 2025 | Credential ID: wMoar-Fa44

KEY PROJECTS

Pavement App: Connects contractors and property managers using satellite imagery and geo-tagged media; includes chat, maps, PDF export, and notifications. Built with React Native, Laravel backend, and Azure.

Identity Verification App: Enables individuals and businesses to verify identities for trusted roles with secure workflows and auditability. React Native with Firebase and SQL.

Food Ordering App: Germany-based restaurant app with menus, deals, basket, and payments (PayPal /Stripe) and order tracking. React Native with Laravel API.
