Version Control & CI/CD:	GitHub, Bitbucket, GitHub Actions, Jenkins
Tools & IDEs:	Android Studio, Xcode, VS Code, Postman, ClickUp, Monday.com, Jira, Sentry
Testing:	Unit/Integration testing, A & B Testing, Closed Testing, Jest, JUnit

PROFESSIONAL EXPERIENCE

React Native Developer (Contract)	Oct 2025 – Present
<i>Keywordal</i>	
- Building an e-learning platform with React Native Expo, focusing on smooth UI and engaging animations. - Collaborating closely with design team to finalise intuitive interfaces and delightful interactions. - Working in agile environment for rapid feature delivery and iterative improvements. - Demonstrating features to product owner using Expo Go for real-time feedback.	
Senior React Native Developer	Apr 2023 – Sep 2024
<i>Lime Software Logics</i>	
Developed and maintained a US pavement-industry app using React Native, delivering core features like team chat, maps, PDF export, and push notifications.	

- Implemented real-time chat and notifications with Firebase RTDB/Cloud Messaging, improving user engagement.
- Owned integrations for maps and geo-tagged media, enhancing visual execution and user experience.
- Delivered sprint goals on time within Agile ceremonies, enabling client to increase user base by 20%.
- Shipped high-demand features to tight deadlines, strengthening long-term client partnership.

Mobile Application Developer

Aug 2019 – Apr 2023

SAS Solutions ORG

- Built and maintained multiple mobile apps using React Native, Java, and Kotlin across food delivery, identity verification, and event planning domains.
- Integrated REST APIs and payment gateways (PayPal, Stripe) for seamless user experiences.
- Bridged native modules into cross-platform apps, ensuring smooth performance and native feel.
- Collaborated with designers and backend teams to refine API contracts and improve UX consistency.
- Led development of in-house and customer-facing apps, enabling business to launch new offerings faster.

EDUCATION

MSc Computer Science

Sep 2024 – Oct 2025

Nottingham Trent University, United Kingdom

BS Software Engineering

Sep 2015 – May 2019

Iqra University, Karachi, Pakistan

CERTIFICATIONS

Microsoft Azure Fundamentals (AZ-900) | Issued: Sep 2025 | Credential ID: wMoar-Fa44

KEY PROJECTS

Pavement App: Connects contractors and property managers using satellite imagery and geo-tagged media to scope on-site repairs; includes chat, maps, PDF export, and notifications.

Identity Verification App: Enables individuals and businesses to verify identities for trusted roles with secure workflows and auditability.

Food Ordering App: Germany-based restaurant app with menus, deals, basket, and payments (PayPal /Stripe) and order tracking.

Party Planner Admin Panel: Designed and implemented an admin dashboard for a Party Planner system, enabling efficient management of events, clients, bookings, and planner activities.
